

FOR THE WEEK OF

February 12-16, 2018

Red Snapper Fillets, skin-on / PBO

These snapper will average 2-4 lbs each and will produce fillets in the 8-12 oz range. This size fish is perfect for single serving size fillets. The flesh is very light in color with bright red bloodlines.

code: 095734

Farm Raised Butterfly Bronzino, head-off / PBO, 7/ 9 oz portions

The fish have been carefully prepared for stellar plate presentation. The head, back bones, and pin bones have been removed. The skin is intact, and the tail remains attached. This is the perfect blend of European and American presentation.

code: 019365

Large Mahi Fillets

We are cutting 20 pound and up fish. Mahi of this size possess a high volume of fat. This is important as the fat adds flavor and moisture to the flesh. Large fillets also yield very well for your portioning. Suitable preparation can include pan searing, baking, broiling, or grilling.

Skin-on / PBO, code: 020708

Skinless/ PBO, code: 095712

Yellowfin Tuna Loins, skin-on / PBO

We are seeing good production of high end fish. The fish are averaging 60-80 lbs and will possess very good volumes of fat and great red color. The loins will average 10-15 lbs each with both 2+ and #1 grading available.

#1 Grade, code: 095707

2+ Grade, code: 094720

Large Australian Sword Loins

The Australian Sword are excellent cold water fish - the nicest fish we have seen since the Canadian season. The boats are fishing on one to two day sets and are arriving at the docks daily. We are flying the fish in daily to ensure freshness. The fish range from 100-200 lbs each and are full of fat.

code: 095717

Large East Coast Day Boat Halibut Fillet, skinless/ PBO

We are targeting the 50-125 lb fish coming from boats that are fishing daily off the coast of Nova Scotia and Newfoundland. These fish will produce thick, large fillets with very good fat content.

code: 095708

FOR THE WEEK OF

February 12–16, 2018
